Madonna Lily

Lilies

"Consider the Lilies, how they grow; they toil not, neither do they spin; and yet I say unto you that Solomon, in all his glory, was not arrayed like one of these."

Regale Lily

If the garden is too small to admit many Lilies, by all means grow Regale, as it will stand a rigorous climate and will respond to fair treatment. The flower stems are slender and flexible, but tense as steel and from 3 to 5 feet tall. Flowers are funnel-shaped, ivory-white with soft yellow throat. Bulbs may be planted in spring as well as the fall. Bloom in July.

Large bulbs Each, 65c; 3 for \$1.75; doz., \$6.50
Medium size bulbs Each, 50c; 3 for \$1.35; doz., \$4.75

Lilium Candidum (Madonna Lily)

It is the best known and most beloved. It thrives in all kinds of soil and exposure to sunshine. The bulbs should not be planted deeply, a covering of 2 inches above the bulb being sufficient. Snow-white flowers, richly perfumed. Bloom in June-July.

Large bulbs Each, 60c; 3 for \$1.60; doz., \$5.75
Medium size bulbs Each, 40c; 3 for \$1.10; doz., \$4.00

Lilium Tenuifolium (Coral Lily)

A narrow-leaved, slender growing and most attractive little Lily from Siberia, growing on an average of 18 inches, with numerous deep scarlet, waxen, recurved flowers on wiry stems. Blooms June. Plant about 4 inches deep.

Top size bulbs Each, 25c; 3 for 65c; doz., \$2.50
